

The Cloud-first Headless CMS

FOR DIGITAL AGENCIES AND THEIR CLIENTS

Manage, display, and personalize content
for any device or channel—in one tool
from any location

With Kentico Cloud, You Can

- Use a content-first approach
- Deliver projects of all sizes ahead of schedule
- Use any programming language and development tools
- Provide content to any channel and device through an API
- Always enjoy the latest version without painful upgrades
- Have a rock-solid performance and high level of security

Manage All Your Content in One Place

- Centralize your content with a Content Hub
- Set up your content types with custom elements
- Define your own workflow and set due dates
- Organize content with a sitemap
- Categorize content with taxonomies
- Manage users with roles and capabilities

The screenshot shows a content management system interface for editing a blog post. The breadcrumb trail is "My blog project > Content inventory > Best places in Florida". The page title is "Best places in Florida" and the user is "Cailey Rizzo". A notification says "All changes saved".

The main editing area has three sections:

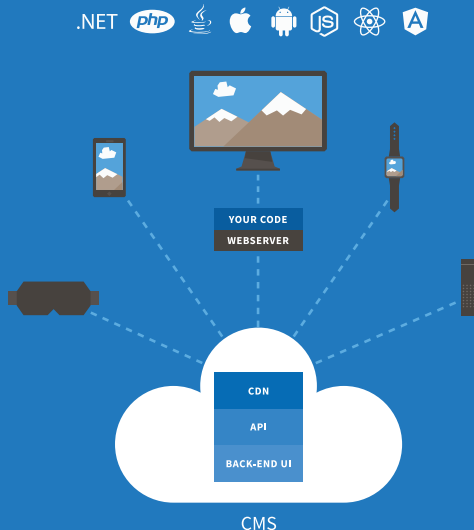

- Title** (required): "Best places to see in Florida" (29 characters).
- Date** (required): "Mar 1, 2017".
- Text** (required): "Orlando offers all kinds of activities." with a small image below.

On the right, there are three panels:

- DETAILS**: Shows the status as "Published" with "No due date set".
- CONTRIBUTORS**: Shows "Cailey Rizzo" with a "Comment" button and "Cancel" text.
- LAST UPDATED**: "Feb 26, 2017 - 4:33 pm by Petr Palas".
- CONTENT TYPE**: "Blog post".

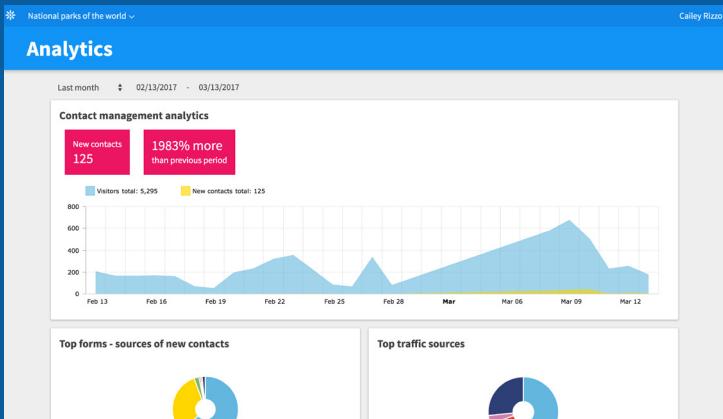

Display the Content Anywhere

- Retrieve your content with a super-fast API
- Focus on your application, we take care of the back-end
- Use your favorite programming language and tools

Personalize the Customer Experience

- Track your website visitors and their activities

Kentico Software has 230+ employees in 5 offices across the globe. With more than 1000 partners, we have been helping digital agencies and their clients deliver successful projects since 2004.

“*Kentico Cloud is probably the only reason our web project launched on time. Our client had a large team responsible for content. Kentico Cloud helped us pull them all together, make everyone responsible for their piece, and keep the overall content production process transparent.*

—**Hillary Long**, Director of Online Marketing, 3Seed Marketing, Design & Interactive

“*Kentico Cloud allowed us to deliver a design-driven yet fully content-managed marketing microsite within the space of a couple of weeks, with no compromises. Being able to have content authors, designers, and developers all working on the project simultaneously is a tremendous benefit of using a headless CMS.*

—**Andy Thompson**, CTO, Get Started

The background of the image is a solid blue color. Overlaid on this background are several white, stylized mountain peaks of varying heights and widths, creating a silhouette effect. The peaks are arranged in a way that they appear to recede into the distance from left to right.
