

## PLANT AND EQUIPMENT POLICY

Pumps United is committed to ensuring that the purchase, use, cleaning, maintenance, transportation and disposal of plant are conducted in a safe manner and to a high quality level.

To achieve our objective, we will:

- Perform risk assessments, involving staff consultation, on all new equipment prior to commencing work
- Ensure personnel are trained to operate plant and equipment to manufacturer specifications
- Perform all planned and responsive maintenance on plant and equipment to manufacturer specifications
- Conduct plant and equipment modifications in accordance with manufacturer's guidelines
- Purchase plant, equipment and parts from reputable providers

Our commitment is to ensure that all plant and equipment hazards are identified , assessed and controlled.

**Pumps United's Senior Management Team is responsible for the effectiveness of our management systems, encompassing all professional services undertaken for our clients.**
